**Frequently asked Questions:**

- Q. What is Keva Anti Radiation Patch?**  
 A: Keva Anti Radiation Patch is designed to assist you in dealing with the environmental stress triggered by Electromagnetic Field based on a Proprietary KERT American Technology to eliminate the biological effects of Electromagnetic field exposure.
- Q. Will Keva Anti Radiation Patch interfere with the normal functioning or range of my cell phone?**  
 A: Keva Anti Radiation Patch will not interfere at all with the operation or range of your cellular phone.
- Q. Will Keva Anti Radiation Patch stop my ear becoming warm when I use my phone?**  
 A: The Keva Anti Radiation Patch will not eliminate tissue heating and any inconveniences associated with your phone. However, some of the "heating" sensation may be associated with the induction of stress proteins, a biological effect not necessarily associated with heating, and thus the Keva Anti Radiation Patch may help to reduce that symptom.
- Q. Can I move my Keva Anti Radiation Patch from one cell phone to another cell phone?**  
 A: KEVA Anti Radiation Patch does not recommend moving the Patch from one phone to another- unless it is the exact same make and model of the original cell phone. Different phones emit and receive different frequency range, and because of that reason, the Patch cannot be transferred.
- Q. Will the Keva Anti Radiation Patch affect the signal strength of my phone?**  
 A: NO! The Keva Anti Radiation Patch will not affect the signal strength of your cell phone.
- Q. What is the lifetime of the Keva Anti Radiation Patch?**  
 A: Keva Anti Radiation Patch is designed to last for the life time of your mobile phones
